

A Soldier of the Legion

An American's War Adventures in Algiers by C. N. and A. M. Williamson. BEGIN IT ON MONDAY.

Not bluffing, but that it is not probable Germany will abandon her "submarine strategy" altogether.

The Arabic was torpedoed on the morning of Aug. 18—some days ago. German officials have said that it would take the U boat which sank the Arabic at least a week to return to her base and report.

ORDERS TO U BOATS FORBID AN ATTACK WITHOUT WARNING.

WASHINGTON, Aug. 28.—A copy of the German Government's instructions to submarine commanders not to torpedo merchant ships without allowing passengers time to escape to boats is now on file at the State Department.

This has been more than hinted at by persons close enough to the Administration to know the facts. The instructions were issued prior to the sinking of the Arabic and the copy was transmitted to the State Department as evidence that Germany intended to "deliberately unfriendly act" in the sinking of the Arabic.

The transmission of a copy of the instructions is also regarded as an earnest of Germany's sincerity in desiring to clear up the Arabic incident. Count von Bernstorff, the German Ambassador, is himself authority for the statement that the Lusitania case has not been reopened in the discussions he is having daily with the Secretary of State.

The Lusitania incident, however, is to be taken up, at the latest, immediately following disposal of the Arabic case. With the concessions made by Germany in the pending matter—that of the Arabic—a satisfactory termination of the Lusitania affair is not expected to be difficult of achievement.

The Washington Government stands on its demand that the act of the submarine that sank the Arabic be discovered, full reparation for the lives lost be made, and assurances given that the illegal submarine warfare on merchant ships cease.

This Government may also demand that the submarine Commander be punished if he displayed instructions of the German Admiralty.

If the German Government does punish the Commander of the submarine which torpedoed the Arabic it will be considered a rebuke to Admiral von Tirpitz, the head of the German Admiralty.

Count von Bernstorff believes that the assurances given by his Government virtually dismisse the Arabic case, until all the information available from the various sources has been received. "Full satisfaction," he explained, "means more than dismissal."

FRENCH AIRMEN AGAIN RAID GERMAN STATION

Drop Bombs on Railroad Depot at Châtel in Argonne—German Bombardment Checked.

PARIS, Aug. 28.—French aviators were again active throughout last night, bombarding the railway station at Châtel, in the Argonne.

This afternoon's official statement reported no important infantry engagements last night. Furious bomb battles were fought along the plateau between Quennoyville and Nouvion, but without important results. In the Argonne the Germans opened artillery attacks on the French trenches at several points, but their batteries were quickly silenced.

The statement follows: "Last night saw some artillery engagements around Souches and Neuville, as well as in the vicinity of Roze."

"There was also fighting with bombs on the plateau of Quennoyville and the plateau of Nouvion."

"In the Argonne our artillery on several occasions checked the endeavors of the enemy to bombard our trenches. The night passed without incident on the remainder of the front."

"French aviators during the night bombarded the railroad station at Châtel-en-Argonne."

WONDERFUL HOW RESINOL STOPS ITCHING

To those who have endured for years the itching torments of eczema or other skin eruptions, the relief that is given by Resinol Ointment and Resinol Soap is perfectly incredible. After all the suffering they have endured and all the useless treatments they spent good money for, they cannot believe anything so simple, mild and inexpensive can stop the itching and burning instantly. And they find it still more wonderful that the improvement is permanent and that Resinol really drives away the eruption completely in a very short time. Perhaps there is a pleasant surprise like this in store for you. Resinol Ointment and Resinol Soap are sold by all druggists. For trial free, write to Dept. 20-25, Resinol, Baltimore, Md. Excellent for eczema.

KAISER DECORATES HIS HEIR AND TWO MORE ARMY HEADS

Order for Crown Prince, Crown Prince of Bavaria and Duke of Wurttemberg.

HE RECALLS VICTORIES.

Honor for His Son on Anniversary of the Battle of Longwy.

BERLIN (via wireless to Bayville), Aug. 28.—Kaiser Wilhelm has conferred the Order of Pour Le Merite on the German Crown Prince, the Crown Prince of Bavaria and the Duke of Wurttemberg.

In awarding these honors the Emperor sent each of the recipients a telegram. The telegram to the Crown Prince of Germany read as follows:

"This week occurs the anniversary of the battle of Longwy, by which the Fifth Army, under your leadership, opened the way into the enemy's country. Success followed success until the task was fulfilled, establishing the connection between the western army and the home frontier."

"In the district north of Verdun your army has fulfilled its task in a manner creating the foundation for our victories in the eastern theatre of war. During the long wait imposed upon your army the idea of revenge the aggressive did not affect you. Nowhere was tenacious bravery, inflexible determination to conquer the enemy or consideration for your subordinates displayed more splendidly than during the tedious and heroic battle of the Argonne."

"I cannot refrain from expressing recognition of your achievements and those of your army by outward symbol. I therefore confer upon you the Order Pour Le Merite."

The Kaiser's telegram to the Bavarian Crown Prince recalls the battle of Lorraine, "where Your Royal Highness at the head of an army composed of the sons of all German States drove back the invaders of German territory."

Count von Bernstorff believes that the assurances given by his Government virtually dismisse the Arabic case, until all the information available from the various sources has been received. "Full satisfaction," he explained, "means more than dismissal."

200 GERMANS KILLED IN ZEEBRUGGE ATTACK

Number of Guns Also Wrecked in Bombardment by British Warship.

AMSTERDAM, Aug. 28.—More than two hundred German soldiers were killed or wounded during the recent British bombardment of Zeebrugge, according to travellers reaching here to-day. A number of German guns were badly damaged.

The occupation of the town of Nieuw, also reported to-day, records a further advance of the German armies pushing eastward from the Haliystok-Belisk line.

ITALIANS ENVELOPING TRIEST AND TRENT

Front Divided Into Two Wide Sections and Both Forces Advancing Slowly.

ROME, Aug. 28 (via Paris).—The Italian front has been divided by Gen. Cadorna, the Commander-in-Chief, into two wide divisions, each conducting a vast enveloping movement. Triest is the objective in one case and Trent in the other.

The action is developing in the theatre in accordance with the predetermined plans. Reports from the front state that constant progress is being made, although movements are slow. Gen. Cadorna has given instructions that as little damage as possible be inflicted on the towns in the paths of the Italian armies.

CROWN PRINCE EAGER FOR ORDER TO RESUME VERDUN OFFENSIVE.

BERLIN (via wireless to Bayville), Aug. 28.—That the Crown Prince is eager to resume the offensive against the French around Verdun was indicated by a copy of an army order he issued Aug. 22, received here to-day. The order recalled the fact that Aug. 22 was the first anniversary of the German victory at Longwy, and added:

"We await with undiminished ardor the day when the Emperor summons us from the trenches for a fresh attack to resume the warfare in which we delight. God grant the day will soon come and France will again feel the strength of the conquerors of Longwy."

Heiress and Her Tango Partner, Whom She Declares She'll Wed

EUGENIA KELLY

CZAR'S LINES PIERCED AS GERMANS RENEW ATTACK ON RUSSIANS

(Continued from First Page.)

Army Headquarters that the Russian lines on the Zlota Lipa had been broken through apparently means that the Teutonic forces are renewing their thrusts in Galician territory and have scored a success in the course of an attempt to clear the remainder of that territory of Russian troops, which, if carried to a conclusion, would result in the Russians being forced back into their provinces of Volhynia and Podolia.

The occupation of the town of Nieuw, also reported to-day, records a further advance of the German armies pushing eastward from the Haliystok-Belisk line.

RUSSIANS SURRENDERED FORTRESS TO SAVE ARMY. PETROGRAD DECLARES

PETROGRAD, Aug. 28.—The General Staff to-day issued an official denial of the German claim that the fortress of Brest-Litovsk was stormed and captured by Austro-German troops.

Brest-Litovsk was evacuated by the Russians, it was stated, because it was considered inadvisable to pen up within its walls a garrison of 100,000 men.

Valuable supplies were first removed. Then the forts on the left bank of the Bug held off the enemy until the main garrison had rejoined the field armies. The fortress was then surrendered to the enemy, the principal works having been demolished.

RUSSIANS DESTROY TOWNS BEFORE GIVING THEM UP TO GERMANS.

LONDON, Aug. 28.—The Austrian official report says Archduke Joseph Ferdinand marched through Kamienka-Litovsk in pursuit of the retreating Russians and found the town in flames. The Russians are burning what they are unable to carry with them in their flight.

With the Austro-German armies in control of all the Brest-Litovsk line except the fortress of Grodno, which Petrograd intimates will be evacuated as soon as the army it is covering is well out of danger, the Riga theatre again comes into prominence as the centre of the German effort.

Battles of great intensity are in progress southeast of Mitau along the Aa and the Dyvina rivers, with their issue in doubt. Two separate although closely related engagements have been in progress for two days, one near Bausk and the other around Jacobstadt.

PRESS ON TO CUT RUSSIAN LINE OF RETREAT.

The capture of Brest-Litovsk and the shifting of the action on the Bug River front to the forests and marshes

to the east will release large numbers of the Teutonic allies for duty elsewhere. The terrain here prevents manoeuvring on a large scale and the forces utilized in the drive across the open plains from Warsaw and Ivangorod are expected to be diverted largely to Field Marshal von Hindenburg's command for the move through Vilna and Dvinsk to Minsk, where the Germans hope to cut the Russian avenue of retreat.

Gen. Polivanoff, Russian Minister of War, announces that Russia is raising another two million men, and says the fate of the campaign will not be decided before some time next year, according to a Petrograd correspondent of the Times.

The correspondent quotes Gen. Polivanoff as follows: "We are confident of our ability to safeguard Petrograd. Our armies can stand the winter without inconvenience. Everything is ready for that purpose."

"A new force of 2,000,000 men will be trained far behind the fighting line and be ready to take the field in the spring."

Gen. Polivanoff, says the correspondent, characterized the suggestion that the allies were not helping Russia to the utmost of their power as "senseless gossip."

With the evacuation of Brest-Litovsk and the Russian armies there apparently making good their escape into the swamps and forests of Black Russia, attention has been turned to the campaign further north, where the armies of Gen. von Eichhorn, von Scholtz and von Gallwitz are pushing forward on Grodno and Vilna, apparently with the intention of cutting, if possible, the connection between the Russian armies in Courland and the north and those east of Brest-Litovsk.

NEW GERMAN WAR LOAN WILL BEAR 5 PER CENT.; REDEEMABLE IN 1924.

BERLIN (via Amsterdam), Aug. 28.—The new German war loan will bear interest at 5 per cent. and will be issued at 99 and will be redeemable in October, 1924, it was semi-officially stated to-day.

OTTAWA ENTRIES.

CONNAUGHT PARK, OTTAWA, Ont., Aug. 28.—The entries for Monday's races are as follows:

FIRST RACE—Purse \$400. Two-year-olds, colts and fillies, bred in U. S. (a) William W. 101; (b) M. J. 102; (c) M. J. 103; (d) M. J. 104; (e) M. J. 105; (f) M. J. 106; (g) M. J. 107; (h) M.
